Subject: Response to Chapter 1 and Intro Comments

Group A considered paper 01-277 and recommends edits as follows:

1. [xiv:22]   Replace "named scratch files" with "regularization of input/output keywords".

2. 1.4 (6)   Nothing needed.

3. 1.4 (7)   Nothing needed.

4. 1.5 (2)   Nothing needed.

5. 1.5.1   [3:28+] Add J3 Note: "If the relevant interpretations pass the Corrigendum, we need to move the PAD= paragraph from above to here and add a similar paragraph for the MOD function."

6. 1.5.2   See response to Item 5.

7. 1.5.2   Nothing needed.

8. 1.5.3   [4:11]   Add "or READ" after "OPEN".

9. 1.6.5 (5)   Nothing needed.

10. 1.7   We deleted ASA carriage control in Fortran 2000.
                 [6:37]   Change "five" to "six".
