

Subject: Comments on section 3
From: Van Snyder

1 Edits

Edits refer to 01-007r1. Page and line numbers are displayed in the margin. Absent other instructions, a page and line number or line number range implies all of the indicated text is to be replaced by immediately following text, while a page and line number followed by + (-) indicates that immediately following text is to be inserted after (before) the indicated line. Remarks are noted in the margin, or appear between [and] in the text.

[This is a curious constraint.

26:25-26

It expresses the same restrictions as the ones at [112:27-28] and [114:38-39]. Since it refers to R7xx syntax rules, the ones in section 7 ought to be enough. I may be mistaken, but it appears that when we quote syntax rules in places other than their “homes” we don’t also quote their constraints.

Editor: Delete the constraint.]

[Editor: Delete “(3.3.2.3)”. It’s a reference to the five-line subclause that contains the note!]

29:40
