

1 **JOR Response to 01-259**

2 To: J3
3 From: Craig Dedo
4 Date: August 21, 2001
5 Subject: JOR Response to 01-259

6 JOR considered the recommendations in 01-259.

- 7 1. [30:6] Make the following edits:
8 [30:6-7] Replace the paragraph with the following:
9 "For derived types, there are no intrinsic operations. Operations on derived types may be defined
10 by the program (4.5.9)."
11 [132:26-27] Replace "the operation" with "it".
- 12 2. [31:5-6] No.
- 13 3. [31:2-6] No. Sooner or later with polymorphic objects, you need to execute a user-defined
14 assignment.
- 15 4. [36:6-8] No, but correct two typos.
16 [36:7] Change "1993" to "2000".
17 [36:8] Change "of" to "or".
- 18 5. [46:6-7] No.
- 19 6. 4.5.1.9 Move [49:39-50:8] to immediately before [47:33]. Renumber 4.5.1.9 as 4.5.1.6½.
- 20 7. [56:41] Renumber 4.5.11 as 4.5.10.1.
- 21 8. [57:23] Renumber 4.5.12 as 4.5.10.2.
