Subject: Edits to make SUBROUTINE/FUNCTION *name* optional on END statements
From: Van Snyder
Reference: 04-396r1

1   Specification

Allow SUBROUTINE *name* to be optional on END statements for internal and module subroutines, and FUNCTION *name* to be optional on END statements for internal and module functions.

2   Edits

Edits refer to 04-007. Page and line numbers are displayed in the margin. Absent other instructions, a page and line number or line number range implies all of the indicated text is to be replaced by associated text, while a page and line number followed by + (-) indicates that associated text is to be inserted after (before) the indicated line. Remarks are noted in the margin, or appear between [and] in the text.
