	WG5 approval of draft DIS	2002-03
4	DIS registered	2002-05
	DIS ballot initiated	2002-06
	DIS ballot results available	2002-09
5	Standard published	2002-11

J3 thanks WG5 for the clarification on internationalization provided
in Resolution T6 and paper WG5-1320. Relevant J3 documents are: J3/98-199.

J3 thanks WG5 for the comments on the interoperability with C requirement
in Resolution T7 and paper WG5-N1321. Relevant J3 documents are: J3/98-194,
J3/198-195, J3/98-196, and J3/98-197, J3-165.

J3 has decided to address the issues raised in WG5-1322 and Resolution T8
with respect to expanded features in derived type I/O. Relevant J3 papers
are: J3/98-189.

J3 thanks WG5 for the clarification on interval arithmetic requirements as
described in Resolution T9. Requirements R4a and R4c have been moved to
the status of minor technical enhancements as MTE-21 and MTE-22
respectively. Relevant J3 documents on R4d are: J3/98-190.
Relevant J3 documents on R4f are: 98-113.
